Ashish Surana

Senior Software Engineer (Frontend)

Phone: +91 9784 878727 | Email: ashishsurana.in@gmail.com | LinkedIn: linkedin.com/in/ashishsurana1

Summary

Senior Frontend Engineer with 8+ years of experience building scalable web applications using React, TypeScript, and Next.js. Expertise in frontend architecture, performance optimization, and building scalable, responsive, accessible user interfaces. Proven track record of improving Core Web Vitals and reducing page load times. Experienced with micro-frontends, SSR, REST APIs, and CI/CD pipelines in Agile environments.

Skills

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3 / SCSS (Sass)
Frameworks & libraries:	React, Next.js, Redux, Zustand, GraphQL, Express, Node.js
Testing:	Jest, React Testing Library, Unit & integration testing
Architecture & performance:	Micro-frontends, Design systems, Core Web Vitals, SSR, Performance Optimization
Tooling & DevOps:	Git, GitLab CI/CD, Webpack, Vite, npm, Semver, A/B Testing, REST APIs, Observability

Experience

Level AI — *Noida, India*

Senior Software Engineer (Frontend) — *Sept. 2022 - Oct. 2025*

- Led frontend development of **core** and **analytics** modules for an **AI-powered** platform (Series A → C), contributing to architectural decisions and building scalable systems using React, Next.js and TypeScript.
- Identified performance bottlenecks and drove optimization strategy using code splitting and lazy loading, reducing page **load time by 50%** and improving Core Web Vitals.
- Established and scaled a reusable **design system** adopted across teams, improving UI consistency by 80% and accelerating development velocity.
- Implemented **GitLab CI/CD** pipelines and **AI-driven automation** to improve testing and deployment workflows, achieving **65% code coverage** and faster release cycles.
- **Mentored engineers** and contributed to hiring and onboarding, improving code quality and team productivity.
- **Tech stack: React**, **Next.js**, TypeScript, A/B Testing, **data visualisations**, Jest, AntD, MUI

Trivago — *Dusseldorf, Germany*

Senior Software Engineer (Frontend) — *Nov. 2020 - Aug. 2022*

- Led frontend development of the **Express Booking** experience using React and TypeScript, building responsive, scalable, high-performance user interfaces.
- Designed and led the end-to-end implementation of booking flows, including technical design, resolving frontend technical debt, and performance optimization, resulting in a **3% increase** in conversion rate.
- Migrated legacy PHP-based pages to React with server-side rendering (SSR), improving maintainability and performance while preserving business KPIs.
- **Tech stack: React**, Typescript, Server Side Rendering, Observability, **A/B Testing**

Innovaccer *Noida, India*

Software Development Engineer - I *Jan. 2018 - Nov. 2020*

- Contributed to **Innovaccer's healthcare data activation platform**, building and scaling **micro frontend applications** which improved page load time by 40%.
- Owned end-to-end development of key product modules, enhancing frontend performance, code maintainability, and UI consistency.
- Collaborated with cross-functional teams (PM, Design, QA) in Agile/Scrum sprints to deliver high-quality, user-focused solutions.
- **Tech stack: React**, Node.js, AngularJS, **Next.js**, Express, **Server Side Rendering** (SSR)

AadhaarApi.com *Pune, India*

Javascript Engineer *Aug. 2017 - Jan. 2018*

- Worked at AadhaarAPI that built SDKs to harness the power of India's Aadhaar biometric database covering over 1.3 billion people.
- Built a dashboard from scratch and developed optimized REST APIs to streamline workflows.
- **Tech stack: React, Redux**, Server Side Rendering, Node.js, AWS

Education

Rajasthan Technical University *Kota, India*

Bachelor of Technology, Computer Science Engineering *June 2017*

Awards

Star Performer, Peer Recognition Awards *Level AI*

Hackathon Winner *Trivago*
